

Program Specification
Doctor of Education Program in Educational Management
(International Program)
Faculty of Social Sciences and Humanities
Mahidol University

Program Award

in full: **Doctor of Education Program in Educational Management**

in short: **Ed.D.(Educational Management)**

Program Objectives

1. The learners will adhere and abide by the academic and professional code of conduct with morality and ethics.
2. The learners will have knowledge and academic ability in educational management
3. The learners will be capable of creating research and academic work in educational management at national and international levels by adopting advanced research techniques
4. The learners will have a capability to express the leadership in education management with academic responsibility, and to manage and administer the relationships with individuals involved in educational management.
5. The learners will be capable of using information technology as a tool to search, analyze, summarise, collect and create a database for decision making for effective communications and management.

Program Learning Outcomes (PLOs)

After completing all courses in the program, students will be able to:

1. perform the quality of being moral and ethical in academic and management matters.
2. express the critical and analytical skills and have potential to purposefully discuss new body of knowledge for educational management by connecting educational management with any other related field.
3. develop the high-quality dissertation and academic commission of educational management nationally and internationally with the employment of advanced research techniques.
4. express the leadership and influence others in educational management, involving presentation of academic research findings responsibly to the public, organisation and administration of the educational institutes dutifully, and establishment of virtuous connection with colleagues and authorities in the educational field.
5. adapt information technology skills to explore and create a database for decision making, and to promote the effective communications and management.

Admission Requirements

1. Candidates must hold a Master degree in education or related fields from national or international institution accredited by the Office of Higher Education Commission.
2. Candidates must obtain a Grade Point Average (GPA) of not less than 3.50.
3. Candidates must pass an English language examination according to the proficiency criteria set by the Faculty of Graduate Studies, Mahidol University, with a TOEFL-IBT score of no less than 90 or an IELTS score with a minimum of 6.0.
4. Applicants who completed a Master degree with an independent study (term paper) must present other work of their own that has equivalent quality to a thesis or approved by the Program Committee, or published research studies.
5. Applicants who do not meet the above admission requirements may be considered at the discretion of the Program Committee and the Dean of the Faculty of Graduate Studies.
